Business Video Promotional

Video remains #1 when it comes to educating prospective buyers on your business and your brand. It has one of the highest conversion rates for purchases and having a video on your website and your business profile in a directory greatly increases your chances of coming up in the Top-20 of a search on Google.

Onsite video interviews can be shared on YouTube, embedded on your business profile, and reposted across most social media networks like Facebook, LinkedIn...

Contact the person that introduced you to the Kansas Small Business Directory; or any of our other online business directory's to make payment.
